

Share your Gratitude

Our Global Competition for all
CoderDojo attendees!

Categories

Make a project that tells us about something or someone you are thankful for.

In one of the following three categories:

- Games, Digital art and animation (eg. Scratch, Unity, Blender)
- Webpages and Apps (eg. HTML, JS & App Inventor)
- Robotics, music (eg. Raspberry Pi, Arduino, Sonic Pi)

A winner and runner-up will be selected from each of the three categories for the projects which are the most creative in showing how thankful they are!

What are you thankful for?

It can be anything in the world!

Your Friends?

Travelling?

Your hobbies?

Jokes?

Brainstorming

Think about something or someone you are grateful or thankful for.

Why are you thankful for that person or that thing?

Think about **how you could show** that thing or person that you are thankful for them using your CoderDojo skills.

I'm grateful for my dog "Jeff" because he always is happy to see me and loves playing catch. I am going making a **game** in which Jeff wins a giant dog biscuit every time he catches a ball using **Scratch** to show everyone how great he is and how thankful I am!

What are you going to make at your CoderDojo club?

Prizes

One winner and one runner-up in each category will get awesome CoderDojo swag!

Submit your project before **December 10**
at: dojo.soy/thankful

Form should be filled in by an adult on behalf of the the child or group.
